FALL 2020

# BLUE BUCKS® ADVENTURES

Ghostly greetings Blue Bucks® savers! With Halloween quickly approaching, my friends at Capitol Federal® and I wanted to emphasize the “treat” in trick-or-treat, by sharing some extra-special, terrifyingly-cool, totally temporary tattoos with you! Check out the tattoo sheet to see all of your favorite Blue Bucks® characters dressed in their spookiest getups.

What do a savings account and a temporary tattoo have in common? Well, nothing really, but that’s the point. Your temporary tattoo is only going to last for a few days, whereas your savings account can last your entire life! Unlike your Halloween tattoo that fades over time, your Blue Bucks® Savings Account increases each time you make a deposit. All the same, please enjoy the hauntingly-humorous Halloween tattoos and have a safe and Happy Halloween!

Until next time, Happy Haunting!

*Milo*
