WINTER 2021

# BLUE BUCKS

## ADVENTURES

Hello again Blue Bucks® Savers! A new year means a new savings goal. Maybe you'd like to boost your savings by increasing the amount just a little each time you deposit to your Blue Bucks account. You'll find that even a small increase in each deposit can make your savings grow!

In this issue of Blue Bucks Adventures, you'll find instructions to build a Snowman on a Stick using one

of my all-time favorite snacks as the snowman's body - powdered donuts. This fun and easy craft is a perfect activity for the remaining weeks of winter with an added bonus - any donuts you don't use on the snowman are for snacking!

Your snowman is like your Blue Bucks savings account; it is entirely your own and can be built just how you want. Pay attention to the way each donut or piece of candy brings you closer to reaching your target of a finished snowman. In the same way, every time you add money to your savings account puts you one step closer to achieving your savings goal.

Until next time!

# SNOWMAN ON A STICK

## Make a buddy for your hot chocolate

Hey, kids! Here's a fun and easy project to enjoy with your hot chocolate - snowman on a stick! Here's what you'll need:

- Mini Powdered Sugar Donuts
- Mike and Ike candy
- Fruit Roll-Ups
- Black Cake Decorating Gel
- Long Wooden Skewers

First, take 3 donuts and carefully slide them onto one of the long wooden skewers. Be sure the donuts are fresh or they may split. Next, take an orange Mike and Ike and push it into the top donut to make his nose. Then, take 2 more Mike and Ikes, cut them in half and push them into the other 2 donuts. They may be any color you choose. Now, cut a strip of fruit roll-up about 8 inches long and wrap it around the snowman between the first and second donuts. Cross over the 2 ends to make the scarf. Finally, take the black cake gel and make the eyes and mouth.
